

ILLANGHKUMARAN THIRUVALLUVAN

Azure DevOps & Automation Engineer

Chennai, India | +91 7402617608 | illangh.thiru@gmail.com | [linkedin.com/in/illanghkumaranthiruvalluvan/](https://www.linkedin.com/in/illanghkumaranthiruvalluvan/) | github.com/thiruvalluvanillanghkumaran

PROFESSIONAL SUMMARY

Results-driven Azure DevOps & Automation Engineer with 6+ years of enterprise experience at Tata Consultancy Services. Specialized in end-to-end cloud infrastructure automation, CI/CD pipeline design, and high-availability Kubernetes orchestration. Proven track record of scaling distributed cloud networks, reducing deployment overhead by 87.5%, slashing cloud spend by 15%, and eliminating operational downtime through advanced Infrastructure as Code (IaC) architectures matching Tier-1 engineering standards.

TECHNICAL SKILLS

Cloud & Platforms:	Microsoft Azure (AKS, App Services, VNET, Azure Key Vault, Traffic Manager)
DevOps & CI/CD:	Azure DevOps (Pipelines, Repos, Artifacts), GitHub Actions, Git, GitOps, Docker
IaC & Scripting:	Terraform, PowerShell, Python, Bash, Helm Charts
Networking & Security:	Cloudflare WAF, Enterprise DNS Management, Venafi/Sectigo PKI
Observability & Logs:	Grafana, Azure Monitor, Log Analytics, Application Insights, Elasticsearch
OS & Databases:	Windows Server (2012-2025), Linux (RHEL 7, 8), Azure SQL, Cosmos DB

PROFESSIONAL EXPERIENCE

Tata Consultancy Services – Cloud Administrator (Azure & DevOps) Feb 2020 – Present | Chennai, India

- Cloud Infrastructure Optimization:** Designed and provisioned 50+ modular enterprise Azure resources (AKS clusters, VMs, Secure Storage) utilizing reusable Terraform templates, accelerating environment provisioning speed by 75%.
- Kubernetes Orchestration:** Migrated 15+ legacy on-premises applications to Azure Kubernetes Service (AKS); engineered dynamic Horizontal Pod Autoscaler (HPA) rules sustaining 200% traffic spikes with zero service degradation while improving response times by 20%.
- Pipeline Automation:** Engineered resilient end-to-end YAML-based Azure DevOps CI/CD pipelines for containerized microservices, compressing deployment cycles from 2 hours down to 15 minutes (an 87.5% drop).
- GitOps Governance:** Enforced strict pull-request-driven GitOps workflows for infrastructure modifications, reducing production configuration anomalies and structural environment drifts by 40%.
- Security Automation:** Standardized a zero-trust certificate infrastructure by automating SSL/TLS certificate rotations using Venafi integrated with Azure Key Vault, preventing 100% of potential expiry-related outages.
- Network Modernization:** Built a cross-platform pipeline utility automating configuration syncs between legacy F5 load balancers and Cloudflare DNS, stripping away 80% of routine human interventions.
- High Availability & SRE:** Architected a multi-region AKS deployment framework featuring secondary region automated failovers, consistently maintaining a 99.95% system availability SLA.
- Incident Engineering:** Authored custom PowerShell auto-remediation scripts linked to Grafana and Log Analytics alert webhooks, driving down Mean Time to Resolution (MTTR) by 30%.

KEY PROJECTS

Enterprise Domain Migration to Cloudflare Enterprise

- Orchestrated and led the massive migration of 2,000+ business-critical domains from legacy on-premises F5 Nameservers to Cloudflare Enterprise networks using managed Azure Pipelines.
- Executed the entire global cutover framework with absolute zero business disruption, yielding a 95% performance improvement in edge routing and DNS propagation.

Automated Cloudflare Zone Provisioning System

- Designed and coded an automated DNS lifecycle management utility by embedding custom PowerShell API wrappers directly into native enterprise Azure pipelines.
- Reclaimed over 30+ hours of direct engineering labor per month by replacing manual entry with deterministic infrastructure-as-code validation.

CERTIFICATIONS

- **Microsoft Certified:** Designing and Implementing Microsoft DevOps Solutions (AZ-400) — 2025
- **Microsoft Certified:** Azure Administrator Associate (AZ-104) — 2024
- **Microsoft Certified:** Power BI Data Analyst Associate (PL-300) — 2025
- **Advanced Certification:** Windows Server Administrator — 2026
- **HashiCorp:** Certified Terraform Associate — (In Progress)

EDUCATION

Vellore Institute of Technology (VIT) – M.S. in Software Engineering Graduated: 2019 | Vellore, India
Thesis: "User Product Review Analysis" (Data Mining, Sentiment Analysis, and Naïve Bayes text structures)

AWARDS & RECOGNITION

- **Top Performer of the Year (2024-2025):** Awarded by TCS for outstanding systemic cloud infrastructure deliveries.
- **Applause Award (2022):** Received for structural cloud cost optimizations and infrastructure scale design.
- **Employee of the Month (5x Recipient):** Awarded across 2022-2026 for incident resolution excellence and production stability.
